

Rome, Italy - 10 October, 2023

Introducing n-Track Studio 10: the creative powerhouse behind your best music.

The culmination of a year of dedicated development, n-Track Studio 10 is at its core driven by one vital element – the user.

The n-Track Studio team has been listening to feedback and creative visions, meticulously crafting a game-changing experience for musicians and producers everywhere.

Shape your sound

Imagine having the power to shape your sound, compose melodies, beats, and

textures that are uniquely yours. With n-Track Studio 10, your creative horizons are boundless. The addition of melodic, drum, multilayer and slicer samplers allows exploring uncharted musical territories. It's the ultimate playground for your musical ideas.

Seamless Sound Integration

You can now import or record sounds directly into the step sequencer, piano roll, drums, or screen keyboard. It's a fluid, intuitive experience that enhances your workflow and empowers your creativity.

FX and Instrument Chains

Craft your unique sonic signature with the ability to save and recall presets for groups of instruments and effects. Your music should sound like you, and n-Track Studio 10 understands that perfectly.

New Song Browser

Say goodbye to the hassle of manual file management. The new Song Browser in n-Track Studio 10 streamlines the process of reloading previously saved songs. Your creative flow remains uninterrupted as you effortlessly navigate your projects.

Ignite Your Creativity with *Shimmer*

Shimmer is your gateway to breathtaking, otherworldly reverberations. Add a touch of celestial magic to your tracks, creating expansive soundscapes that transport your listeners to distant realms - Shimmer will infuse your music with an enchanting aura that's simply mesmerizing.

***Diffuser*: Your New Secret Weapon**

Diffuser is your secret weapon for sculpting intricate sonic landscapes that captivate the senses. This powerful effect allows you to disperse and diffuse sound, creating immersive soundscapes that envelop your audience.

Fresh Sounds Await

To top it all off, n-Track Studio 10 offers a wide selection of new sound packs - from Rap Vocals to Church Organ, these new sound packs have been developed in collaboration with artists from Atlanta, USA, to Leeds, UK. It's a global fusion of creativity that's ready to infuse your music with fresh inspiration.

"We're thrilled to introduce n-Track Studio 10, a big step forward for music producers and artists," said Flavio Antonioli, CEO of n-Track Studio. "This release reaffirms our commitment to providing the best tools for musicians to bring their creativity to life."

About n-Track Studio

28 years after its inaugural release, the n-Track Studio music production DAW has grown into a thriving hub of creativity, with a vibrant user community with above 15 million downloads of the app on Windows, Mac, iOS and Android.

Availability

n-Track Studio is available now on all major desktop and mobile platforms, including Windows, macOS, iOS and Android.

A free trial version is available for those who want to experience n-Track Studio power firsthand.

For media inquiries, or additional information, please visit ntrack.com, or contact Matt Thurtell at matt@ntrack.com

NFR version available on request (please specify the platforms you're interested in testing n-Track Studio on).

What the Press Says About n-Track Studio

"n-Track is good at capturing guitar demos, trying different vocal arrangements, and more. There's a bevy of processing options too, including proprietary vocal tuning and a fantastic reverb that emulates the spaces of actual rooms. Importing different audio from outside the app (like tracks and samples) is simple, and an effective input/output monitoring system makes n-Track a great mobile recording solution."

Pitchfork

"A major update to the pioneering digital audio workstation, first released over 21 years ago. Today, n-Track Studio is available for Mac OSX, Windows, iOS and Android platforms."

Pro Sound News

"n-Track Studio has several things going for it. It works across desktop and mobile platforms, and it's easy to use."
